

## PRESS RELEASE

### Shoppingcenter 't Loon reopened

**Hoofddorp, 6 March 2015 – On 5 March 2015, the ‘grand opening’ of the new C&A store in shoppingcenter 't Loon in Heerlen took place. The opening of the brand new C&A store marks the completion of the rebuilding process of the shopping center. Plenty of other festive activities took place to celebrate the new start of shopping center 't Loon.**

In December 2011 an old mineshaft caused a sudden subsidence in a column in the parking garage. By order of the municipality, the shopping center was partially demolished. NSI took the opportunity to improve the shopping center alongside with the rebuilding activities. Next to the C&A store, the entrance has been renewed, the lay out and routing have been improved, and the parking garage has been expanded.

Paulien Straeter C & A Netherlands commented: *"We are extremely proud that the largest C&A store in the Southern Netherlands has come back in shopping center 't Loon. The new store features the latest store concept, in which it is all about experience and inspiration."*

Johan Buijs, CEO of NSI adds: *"Together with our retailers, we are pleased that the reconstruction is now completed. It has been a turbulent time, but NSI is very proud of the result."*
